WHO WE ARE

About Stolzen

We founded Stolzen in 1994 in Elbląg, northern Poland, and today we are one of the country's leading manufacturers of kitchen fronts and kitchen furniture, with more than 25 years of experience.

We make every kitchen to order. Our factory combines modern machinery with traditional joinery: machines handle the precision work, and people check the finished product. We finish many parts by hand and make our own fronts, cabinets and drawer fittings, so we control quality at every stage.

Fronts come in solid wood, wood veneer, lacquered and painted MDF, and laminate, in matt or gloss. Painted fronts can be ordered in RAL and NCS colours, and there are more than 120 cabinet types to plan your layout with. Doors and drawers can be fitted with soft-close and touch-to-open systems.

Through Stolzen UK, we now sell our kitchens directly to customers across the UK, planned to the measurements of your room.
